MONDAY, OCTOBER 20 @ 10:30 AM – NOON

Course: **GIVE MY REGARDS TO BROADWAY**
Subject: *Kiss Me Kate ... er, Lilli ... er, Kate*
Presenter: Paul Golomb
Room: Auditorium
Format: **Hybrid (To be Recorded)**
Coordinators: Peter Dichter, Arlynn Greenbaum
Tech Support: Victor Brener, Wayne Cotter

Kiss Me Kate has been immensely popular, revived on Broadway and the West End London a number of times since its opening in 1948. It is especially clever, subversively bawdy, and surprisingly subtle. Like *Taming of the Shrew*, its presentation can challenge or reflect the role of women in society.

Course: **WONDERFUL BOOKS OUT LOUD**

Short Stories of Mark Twain
Bantam Classics Edition
Some Learned Fables for Good Old Boys and Girls - page 126
The Story of the Bad Little Boy - page 7
Facilitator: Harriet Finkelstein
Room: 27
Format: In-Person Only
Coordinators: Harriet Finkelstein, Larry Shapiro, Ruth Ward
Tech Support: Ruth Ward, Larry Shapiro

NO ADVANCE READING REQUIRED

Some Learned Fables for Good Old Boys and Girls is a satirical story that humorously critiques scientific expeditions and the human tendency to misinterpret findings. One could call this a reverse fable in the sense that the animals of the woods discover items made by human beings.

The Story of the Bad Little Boy satirizes moralistic children's tales by depicting a boy named Jim who consistently avoids punishment for his wicked deeds. The story highlights the contrast between the expected outcomes in Sunday-school books and the reality of Jim's life.

Mark Twain was not only brilliant but also bold in seeing fit to explore and expose what others of his era, and indeed this one, may have called taboo. Join us as we delve into the wit and wisdom of one of America's greatest writers.

MONDAY, OCTOBER 20 @ 12:10 – 12:50 PM

Come celebrate our morning ritual — the coffee that jumpstarts our Quest days! Join us as we honor **Pam**, our esteemed “chief barista,” and her **merry band of volunteers** who keep the coffee flowing come rain or shine. Together we’ll explore the **social magic of a shared cup**, the **surprising health benefits of coffee**, and the joy it brings to our community.

Expect **music, merrymaking, and good cheer** — just don’t forget your lunch (and maybe your favorite mug).

Tech Support: **Wayne Cotter**

The presentation includes letters from Elizabeth Barrett Browning, Robert Browning, Harry Truman, Zelda Fitzgerald, Ernest Hemingway, George Bernard Shaw, Vita Sackville West, and James Thurber, as well as a fan letter to Elvis. As our culture speeds toward faster and more convenient forms of communication, there is still something powerful in patiently scripted words as they flow slowly on to a sheet of paper.

The presentation was arranged and adapted by Roy Clary

Course: **QUESTER'S CHOICE**
Subject: Radiology and the X-ray
Presenter: Ron Kolber
Room: 27
Format: Hybrid

Tech Support: **Steve Chicoine**

Radiology and the X-ray: The Good, the Bad, and the Very Bad

A potpourri of science, history, American culture, rabbit holes, and lots of trivia.

The discovery of the X-ray brought about momentous changes in the understanding of the atom and introduced rapid advances in science and technology. It had profound influence upon the history of the 20th century, including two world wars, workplace conditions and in understanding the science behind the technology that we use to this very day.

We encounter many rabbit holes along the way, making for an unpredictable journey.

TUESDAY, OCTOBER 21 @ 10:30 AM – NOON

Course: **ARTISTS AND THEIR WORK**
Subject: A New Presentation of African Art
Presenter: Ann Goerdt
Room: Auditorium
Format: **Hybrid (To be Recorded)**
Coordinators: **Linda Downs**, Bob Reiss, Lynnel Garabedian, Ellen Shapiro
Tech Support: **Victor Brenner**, Ellen Shapiro

The Michael C. Rockefeller Wing of the Metropolitan Museum now presents a greatly expanded view of African art. It presents about 500 works from its collection, a fourth of which had never been shown. These works cover an extended time frame, with enhanced descriptions of what they mean within their specific cultures. Much of the new information is based on research on African art over the past 40 years, since the Rockefeller wing opened in 1982. There is also more variety in the works; e.g., more textiles, costumes, and videos to illustrate their use.

This presentation will briefly describe some of the new aspects of the exhibit and provide an overview of works from the countries that are best known for the use of different forms of art in their cultures. There is much to say about this new exhibit, and those of you who

have seen it will be welcome to point out what I miss. Those who have not seen it, will hopefully be motivated to do so!

Veremos una representación de este cuento clásico y luego hablaremos de situaciones relacionadas de nuestra vida personal.

Slow and Steady Wins the Race

Do you remember Aesop's fable "The Tortoise and the Hare?" Do you think perseverance rather than speed or even natural talent is a better path to long term success? We'll see an enactment of this classic tale and then discuss related situations in our own lives.

Like many of my presentation topics, this originated in personal experience, a medical event that made me wonder what was going on behind the scenes. I've explored the history of scientific study of the endocrine system and the rise of endocrinology as a medical practice, and newer research topics like gut hormone regulation and behavioral endocrinology. I may have learned enough to answer some questions or at least recommend some reading.

treasure trove of wonderful love poetry. Join us in listening to and/or reading one of these cultural gems.

THURSDAY, OCTOBER 23 @ 1:00 – 2:30 PM

Course: EMOTIONAL DICHOTOMIES WITHIN
Subject: The Value of Values
Presenter: Donna Ramer
Room: 15-17
Format: Hybrid
Coordinators: Elaine Martin, Donna Ramer
Tech Support: Felix Pena, Donna Ramer

We typically don't think about our values, yet every decision we make is driven by them. So the question is: what, exactly, are values? How have they been inculcated into our subconscious psyches and manifested themselves in our daily lives? How do we know if we're being driven by the momentum of unhealthy inauthentic ones that really no longer work for us and, if so, is there a way to evolve them into healthy, authentic ones that better support our true beliefs?

Course: EXPLORATIONS IN PHILOSOPHY & LITERATURE
Subject: Trolley Problems
Facilitator: Steve Allen
Room: 27
Format: In-Person Only
Coordinators: Larry Shapiro, Steve Allen, Bob Belfort
Tech Support: Steve Chicoine, Larry Shapiro

Most of us have probably encountered some version of the "trolley problem" in our reading or in popular culture — is it right to divert a trolley that is about to kill five people onto a track where it will kill only one person? What few of us probably know is that this problem

became prominent due to a 1976 paper in the Yale Law Journal by Judith Jarvis Thompson, a distinguished professor of philosophy. In this session, we will look at this type of problem from the vantage point of both philosophy and literature. From a philosophical angle, we will discuss whether exploring imaginary hypothetical situations that are highly unlikely to arise in real life provides real insights into ethical issues. From a literature angle, we will discuss the 1996 short story "The Night in Question" by the acclaimed author Tobias Wolff, in which he explores the emotional dimensions of contemplating a question of this type.

Readings for the course will be distributed in advance through QuestBusiness.

Course: **POETS' WORKSHOP**
Room: 19
Format: In-Person Only
Coordinators: **Judith Winn**, Judy Hampson, Helen Saffran

Write a poem using the cue word "wandering" or a word of the poet's choice. Authors will read their poems and bring copies of each poem to the class for a second reading by a classmate. A discussion of the poem will follow.
